

Cllr Coles Report JUNE 2019

Good news for Exning as I have achieved 2 positions of note within the new governing cabinet.

I have been appointed Vice Chairman of Overview and Scrutiny.

I have been appointed Conservative Whip for the West Suffolk District.

I have attended O/S and a group meeting since last Council.

Nothing of major interest to Exning was discussed.

Things coming up for parish council that I am aware of is;

- 1) Sunnica Solar farm, an enormous Solar farm stretching from Worlington to Exning.
- 2) Phase 2 of the Burwell Road development will go to planning within months, I hope the parish have a plan of

What the village will require, along with thoughtful road names, a policy on open space (of which we are short), play areas and landscaping, along of

Course with access and road usage. Also the parking issues that will follow for the village and the pressure on the school.

- 3) Undoubtedly the development will push for more houses, so as advised before, get a list together quick and get it agreed so you can ask for more if more houses come.
- 4) The right of way order for the cycle path will be laid hopefully within months, it has taken me 7 years of pushing to get there, but we are very close.

Things I would like to ask Cllr Hood;

- 1) Why did the 142 junction take so long in closure for such little work?
- 2) I would like to know what it cost if at all possible?
- 3) Any progress on the crossing in front of school please, is it being reviewed etc.
- 4) What are her thoughts on Sunnica's solar farm?

Regards

Cllr Cole
